Description

9'4" x 94" Pioneer Pro Tradesmen Bed

Standard Features:

- 4 structural steel channel frame rails Because we don't use roll-formed runners, our structural 4 channel frame rails are stronger and more durable than any on the market. They also prevent any rusting from the interior of the tube.
- 3 Steel roll-formed 3/16 channel crossmembers These are the toughest and most durable work truck subframes.
- Full-length side skirt with stainless fenders and aluminum treadplate trim A one-piece, non-exposed seam skirt protects against corrosion and oxidation.
- 6 -- Lockable toolboxes (3 on each side) featuring T-handle compression latches Our recessed toolbox doors provide maximum safety in our large boxes to prevent weathering of your tools and equipment. For security, the dual latches lock with a key and padlock loop when desired.
- Angled fuel fill A shinier and better-looking feature for your work truck, as well as a no-corrosion zone for all your in-and-out hauls.
- Full-length rear skirt A one-piece rear skirt that is seamlessly integrated into the bed's structure, creating a sleek and finished appearance.
- Tapered rear corners for maximized turning radius This feature allows a maximized turning radius with innovative and sleek design.
- Rear bumper with aluminum treadplate trim Provides a shiner and brighter element to the rear bumper of your work truck.
- Drop-down rear tailgate with center handle Our heavy-duty rear tailgate has a secure seal that holds tight in transit, yet opens smoothly and withstands years of hard use.
- Tall rear box Provides more storage space and versatility.
- Opossum belly box This box has a treaded design and is conveniently located underneath the flatbed so you can store your shovels and other outdoor tools.
- LED cargo light with toggle switch Provides lighting to be able to see your tools and equipment on the deck.
- 30,000 lb.-rated B&W gooseneck hitch with 7-way electrical plug This is a best-in-class, independently tested gooseneck hitch that handles even your toughest hauls. It also contains a 7-way electrical plug to give you ample choices for your power-driven needs.
- 18,500 lb.-rated B&W bumper pull hitch Dakota's independently rated bumper pull hitch gives you best-in-class towing capacity, which is integrated into the entire frame.
- Truck Bed Lighting features include 2 -- LED recessed tail, brake and backup lights mounted in headache rack Dakota's lights are brighter and use less power than conventional incandescent lights, so your stops, turns, and tag lights will easily be seen and recognized. LED Stop, turn, tail, back up, and tag lights in skirt Powerful, long-lasting

LED lights in the skirt provide additional safety while driving, stopping, turning and backing up. LED DOT required lighting (clearance and marker lights) When you're out on the road, count on our LED lights to make your truck bed stand out.

- Cast aluminum worklight housing and lights Our cast aluminum work lights provide users with a safer and more productive work space. When your oilfield or construction job runs long into the night, trust in Dakota Truck Bodies.
